

KIDS THAT ROCK - Covid 19 Risk Assessment

This document has been prepared after consideration of the following external advice:

- Guidance for full opening: schools - Department for Education
- Music Unlocked: Guidance for Providers - Music Mark
- Music Unlocked: Guidance for Schools - Music Mark

In addition to the Risk Assessment (overleaf) please note the following:

- tutors will wash hands or use sanitiser (as the school prefers) on entry and exit of the school
- tutors will follow any additional protocols required of them by schools (e.g. following one-way systems, working with schools during their first visit to agree a system to ensure pupils attend – especially in primary schools, etc...)
- pupils will be taught in “bubble” groups by one tutor only
- a suitable room which can be well ventilated and where social distancing can be maintained between tutor and pupil will be required
- tutors will familiarise themselves with the school’s own Risk Assessment where it relates to music provision

Instruments	Surface Transmission	pupils, tutors & school staff	There must be enough instruments in school for one instrument per pupil and instruments should be individually named. Pupils must use their allocated instrument only, borrowing an alternative is not an option.	pupils, tutors & staff
Instruments	Surface Transmission	pupils, tutors & school staff	If consecutive classes require the equipment then it must be sanitised between uses and hands must be washed thoroughly each time.	pupils, tutors & staff
Instruments	Surface Transmission	pupils, tutors & school staff	When many instruments require handling before a lesson (e.g. for tuning) tutors should clean their hands before and after this process. Tuning should be done without the pupils present. Before the session commences, all pupils should clean their hands.	pupils, tutors & school staff
Instruments	Surface Transmission	pupils, tutors & school staff	If the need to handle a pupil's instrument is unavoidable (e.g. maintenance) tutors and/or staff must wash their hands thoroughly before & after the process and avoid touching other equipment or their face. Equipment used for maintenance should be sterilised after use and before being taken from the school.	pupils, tutors & school staff
Instruments	Surface Transmission	pupils, tutors	Tutors must only play their own instruments and model good practice on their own instrument	pupils, tutors
Equipment	Surface Transmission	pupils, tutors & school staff	Schools should consider sanitising seating in between use by pupils. To minimise surface transmission.	Staff & Tutor

Equipment	Surface Transmission	pupils, tutors & school staff	Avoid the use of sheet music/lyric sheets and music stands. If necessary, display music/words on a screen. If used, music stands must be sanitised before and after each teaching session	Tutors & Staff
Touch Points	Surface Transmission	pupils, tutors & school staff	Contact with touch points such as door handles should be minimised (e.g. only the class teacher or tutor to open the door, rather than pupils)	Tutors & Staff
Distancing	Airborne Transmission	pupils, tutors & school staff	Tutors will maintain a minimum distance of 2m from pupils. A desk for the tutor may help further to maintain distancing	Tutors, pupils & staff
